

The board of directors' of Truecaller AB, reg. no. 559278-2774 (the "Company"), proposal for resolution regarding implementation of employee stock option program 2024:2, directed issue of warrants and approval of transfer of warrants to fulfil the Company's commitments under the employee stock option program (Item 19)

The board of directors proposes that the Annual General Meeting resolves on:

- (A) implementation of employee stock option program for Alan Mamedi (Chief Executive Officer, board member and co-founder of the Company) and Nami Zarringhalam (Chief Strategy Officer, board member and co-founder of the Company) – employee stock option program 2024:2; and
- (B) hedging arrangements in respect of the employee stock option program 2024:2, consisting of a directed issue of warrants and approval to transfer the warrants.

Objectives and reasons for the proposal

Truecaller has during a number of years resolved to implement long-term incentive programs. Following an evaluation, the board of directors has decided to propose to the Annual General Meeting the establishment of a new incentive program for Alan Mamedi and Nami Zarringhalam. The purpose of employee stock option program 2024:2 is to reward long term commitments of the participants and to ensure that the Company's long term value increase is reflected in the remuneration for the participants of the program. In view of the terms proposed below, the size of the allotment and other circumstances, the board of directors assesses that employee stock option program 2024:2 is well-balanced and that it will be beneficial for the Company and its shareholders.

To secure the Company's commitments under the employee stock option program 2024:2, the board of directors also proposes that the Annual General Meeting resolves on a directed issue of warrants and to approve the transfer of warrants in accordance with item B below.

Proposed resolution regarding implementation of employee stock option program 2024:2 (Item 19 (A))

The board of directors proposes that the Annual General Meeting resolves to implement employee stock option program 2024:2, according to the following main principles:

- (a) Employee stock option program 2024:2 shall include Alan Mamedi (maximum 550,000 employee stock options) and Nami Zarringhalam (maximum 550,000 employee stock options), which means that a maximum of 1,100,000 employee stock options will be allotted in employee stock option program 2024:2.
- (b) Each employee stock option shall initially entitle the holder to subscribe for one new ordinary share of series B in the Company at a subscription price of SEK 37.83, corresponding to 125 percent of the volume weighted average price of the ordinary share of series B according to the official share list of Nasdaq Stockholm during the 30 trading days preceding the day of the notice to the Annual General Meeting 2024. The subscription price and the number of shares for which each employee stock option entitles the holder to subscribe may be subject to recalculation pursuant to a bonus issue, share split, new issue with preferential rights and similar measures, whereby conventional terms and conditions for recalculation shall be applied.

- (c) Allotted employee stock options shall be offered free of charge. Such offer shall be made within 10 banking days from the date the resolution on allotment is made. Allotment may take place during the period until the end of the next Annual General Meeting. Over-allocation may not occur.
- (d) 1/3 of the employee stock options may be exercised to subscribe for new ordinary shares of series B during the period 15 June 2026 – 28 February 2027, 1/3 of the employee stock options may be exercised to subscribe for new ordinary shares of series B during the period 15 June 2027 – 28 February 2028 and 1/3 of the employee stock options may be exercised to subscribe for new ordinary shares of series B during the period 15 June 2028 – 28 February 2029. The reason for the duration of 1/3 of the employee stock options being less than three years is that the board of directors has made the assessment that a longer duration than the proposed not sufficiently would contribute to the ability to reward the contribution of the participants.
- (e) The holder shall be entitled to exercise the employee stock options during the periods set out above, provided that the holder concerned at the time of exercise (i) is still employed by the Company or by any company within the group, (ii) has not received notice of dismissal (Sw. *avsked*) or termination (Sw. *uppsägning*) from his or her employment in the Company or in any company within the group for reasons other than scarcity of work (Sw. *arbetsbrist*) and (iii) the Company achieves a combination of revenue growth rate (%) and adjusted EBITDA (%) of at least 25 percent annually, on average, during the two financial years preceding the respective exercise period. In the event that the performance target falls below 25 percent, the entitlement to exercise the employee stock options shall decrease linearly, and in the event that the performance target falls below 5 percent, no exercise of employee stock options can be made.
- (f) Upon exercise, each employee stock option will entitle the holder to receive one warrant immediately exercisable for one ordinary share of series B against payment of the subscription price.
- (g) For participation in employee stock option program 2024:2 it is required that such participation is legally possible, and that such participation in the board of directors' opinion is possible at reasonable administrative costs and with reasonable financial resources.
- (h) Issued employee stock options do not constitute securities and may not be transferred, pledged or otherwise disposed of by the holder.
- (i) In other respects, the board of directors shall establish the general terms for participation in the program and, in the event of company related events, market conditions, local legislation or other rules, regulatory changes, or other events, the board of directors shall be entitled to make deviations from and adjustments of the terms and conditions of employee stock option program 2024:2. However, the participants shall not participate in the board of directors' establishment of the terms of employee stock option program 2024:2.

Directed issue of warrants and approval of transfer of warrants to secure the Company's commitments under employee stock option program 2024:2 (Item 19 (B))

To enable the Company's delivery of shares pursuant to employee stock option program 2024:2 the board of directors proposes that the Annual General Meeting resolves on a directed issue of warrants and to approve the transfer of warrants on the following terms:

- (a) A maximum of 1,100,000 warrants shall be issued, entailing an increase in the share capital of a maximum of SEK 2,200.

- (b) Right to subscribe shall, with deviation from the preferential right for existing shareholders, reside in the Company's wholly owned subsidiary True Software Scandinavia Incentive AB, reg. no. 559011-2073 (the "Subsidiary").
- (c) Subscription must be completed no later than three weeks after the resolution on issue of warrants. The board of directors shall be entitled to extend the subscription period.
- (d) The warrants shall be issued free of charge.
- (e) Each warrant shall entitle the holder to subscribe for one new ordinary share of series B in the Company.
- (f) Each warrant shall entitle the holder to subscribe for one new ordinary share of series B in the Company at a subscription price of SEK 37.83, corresponding to 125 percent of the volume weighted average price of the ordinary share of series B according to the official share list of Nasdaq Stockholm during the 30 trading days preceding the day of the notice to the Annual General Meeting 2024. The subscription price and the number of shares for which each warrant entitles the holder to subscribe may be subject to recalculation pursuant to a bonus issue, share split, new issue with preferential rights and similar measures, whereby conventional terms and conditions for recalculation shall be applied.
- (g) Subscription of ordinary shares of series B in the Company by virtue of the warrants may take place during the period from and including 15 June 2026 until and including 28 February 2029. The share premium shall be transferred to the unrestricted premium reserve.
- (h) Shares issued following exercise of warrants during a certain financial year shall entitle to dividend for the first time on the record day for dividend which occurs following registration of the shares with the Swedish Companies Registration Office.
- (i) The complete terms and conditions for the warrants are set out in "*Terms and conditions for warrants of series 2024:2 regarding subscription of shares in Truecaller AB*".

The reason for the deviation from the shareholders' preferential right is that the issue forms part of the implementation of employee stock option program 2024:2. In view of what is set forth under *Objectives and reasons for the proposal* above, the board of directors is of the opinion that it is of benefit to the Company and its shareholders that Alan Mamedi and Nami Zarringhalam are offered to participate in employee stock option program 2024:2.

The board of directors further proposes that the Annual General Meeting resolves to approve that the Subsidiary transfers warrants to participants in employee stock option program 2024:2.

Finally, the board of directors proposes that the board of directors, or anyone appointed by the board of directors, should be authorised to make such minor adjustments to the above proposal that may be necessary in connection with the registration procedures with the Swedish Companies Registration Office, and possible registration of the warrants with Euroclear.

Costs and effects on important key ratios

The costs of employee stock option program 2024:2, which are charged in the profit and loss account, are calculated in accordance with the accounting standard IFRS 2 and distributed over the duration of the employee stock option program 2024:2. The calculation has been made based on the following assumptions: (i) a market price of the Truecaller ordinary share of series B of SEK 30.26 based on the volume-weighted average price during the period 7 March 2024 to

19 April 2024, (ii) an expected dividend of 1.2 percent per year, and (iii) an employee turnover of 0 percent per year. In total, this can lead to maximum costs for the employee stock option program 2024:2 of approximately SEK 11.6 million, excluding social security costs. The costs for social security charges are estimated to approximately SEK 2.3 million assuming an annual share price increase of 25 percent during the duration of the employee stock option program 2024:2.

The employee stock options do not have a market value since they are not transferable. However, the board of directors has calculated a theoretical value of the employee stock options using the Black & Scholes valuation model. The calculations have been based on the term of the employee stock options, the subscription price, an assumed share price of SEK 30.26 per ordinary share of series B, an average risk-free interest rate of 2.7 percent, an assumed average volatility of 60 percent, and an expected dividend of 1.2 percent per year. In accordance with this valuation, the value of the employee stock options in the employee stock option program 2024:2 is approximately SEK 10.51 per option.

The expected annual costs of the employee stock option program 2024:2, including annualized social security charges of approximately SEK 0.5 million, would have corresponded to approximately 0.8 percent of Truecaller's total annual employee costs 2023.

Given the above assumptions regarding scope and costs, and that the employee stock option program 2024:2 was introduced in 2022 instead, it is estimated that the key ratio earnings per share for the full year 2023 had decreased from SEK 1.49 to approximately SEK 1.48.

The board of directors deems that the positive effects on earnings that are expected to result from increased share ownership of Alan Mamedi and Nami Zarringhalam, which may be further increased through the employee stock option program 2024:2, outweighs the costs related to the employee stock option program 2024:2.

Dilution

Upon full exercise of all employee stock options, 1,100,000 new ordinary shares of series B can be issued, which corresponds to a dilution of approximately 0.29 percent of the total number of shares and approximately 0.14 percent of the total number of votes in the Company, however, subject to any potential adjustment which may occur under the terms and conditions for the warrants. Accordingly, the program offers the employees the possibility to increase their shareholding in the Company to the corresponding figure.¹

Preparation of the matter

The proposal regarding employee stock option program 2024:2 has been prepared by the board of directors in consultation with external advisors. Alan Mamedi and Nami Zarringhalam have not participated in the preparation of the matter or the determination of the terms of employee stock option program 2024:2.

Other share related incentive programs etc.

¹ Before the cancellation of shares proposed under item 16 and excluding dilution as a result of previous incentive programs and excluding dilution as a result of Share Program 2024 and employee stock option program 2024:2, which are proposed under items 18 and 19 in the notice to the Annual General Meeting 2024.

Truecaller's ongoing share-based incentive programs and variable compensation to senior executives are described in the annual report for 2023, in note 7 to the consolidated financial statements. The board of directors' accounts of the remuneration committee's evaluation of the principles for remuneration to senior executives which are published on Truecaller's website, describes how Truecaller applies its principles for remuneration to senior executives in accordance with the Swedish Companies Act.

Authorization for the board of directors

The board of directors proposes that the Annual General Meeting authorizes the board of directors to execute the resolutions in accordance with the above and to ensure that the Subsidiary's board of directors carries out the transfer of the warrants in accordance with the above.

Majority requirements

A decision according to the proposal is valid only when supported by shareholders holding not less than nine-tenths (9/10) of both the votes cast and of the shares represented at the Annual General Meeting, whereby shares and votes held by Alan Mamedi and Nami Zarringhalam shall not be taken into consideration.
